## ICC 2021 WORKSHOPS

The **ICC 2021** is organizing two extensive, in-depth workshops that will be held for two hours on all the days of the conference, from **10 AM - 12 PM**. Interested people can register for attending the workshops from our registration page.

(Please note that registrations are served on a first-come, first-serve basis)

A workshop on detailed analysis of **flank opening** theories including King's Indian Defense, Reti Opening, English Opening, Caro-Kann, etc. will be held by **GM Teimour Radjabov**.

DeepMind in partnership with **Chess.com** is hosting a workshop on the role of AI in Chess with a case-study of their own chess engine, **AlphaZero**. Attendees will be able to understand how conventional chess ideologies are translated into notions that can be perceived by the computer. No prior technical knowledge is required to join this workshop.

## Learning Outcome:

- From the experiment, I learnt to implement simple CSS tags.
- I learnt about some common CSS attributes that can be used for most HTML tags like color, background-color, margin, padding etc.
- I learnt how to do inline, internal and external CSS.
- I learnt about selector based psuedo-class CSS tags like :hover, :nth-child, :active, :visited and their usage for anchor and table elements.
- I was able to implement CSS for navigation bar, footer, tables and forms.
- I learnt how to style different HTML elements.
- I learnt to implement basic text animations and transitions.
- I learnt and implemented various semantic tags of HTML5.
- I learnt about implementing CSS by ID, tag type, class name and inheritance properties of CSS.
- I learnt about different CSS selectors.
- I learnt how to use icons for styling the bullet for unordered lists.
- I learnt to import and use custom Google Fonts for styling the webpage.
- I learnt and implemented basic box-modeling concepts, and understood about outlines, borders & paddings in CSS.
